¹ More than 94% of the 1080 HDTV signal is displayed. Due to variances in program productions and transmissions not all of the 1080 signal is suitable for display.

HDTV Monitors require an optional HDTV tuner to view HDTV programs. Check with your content provider for HDTV program and tuner availability. The DVI-HDTV input will accept digital cable and satellite HDTV signals.

All specifications and dimensions are subject to change without notice. Refer to www.hitachi.com/tv for updated custom install specifications.
