Weight	77.2 lbs	

Footnotes

- ¹ Optional set-top receiver required to view DTV programming. Optional external over-the-air antenna may be required for ATSC reception. If your

cable company "passes through" a DTV signal unchanged, an optional HDTV set-top receiver can decode and tune the program. However, standards for cable connectivity have not been finalized. Consequently, this product may not be compatible with your cable system.

Design and specifications subject to change without notice.
