

PLASMA

# CINEMAWALL™ CW-61

RUNCO INTERNATIONAL  
FLAT PANEL DISPLAY MONITORS

CinemaWall

GREAT FOR DARK THEATERS OR BRIGHT ROOMS  
MULTIPLE ASPECT RATIOS  
HDTV CAPABLE

The World's Finest Home Theater Products™

The CinemaWall™ CW-61 plasma display combines high-resolution quality and affordability into one package. This, one of the largest plasma displays on the market, has all of the features that one has come to expect from a Runco product, including high-quality video processing, aspect ratio control and ease of use. The advanced Runco processing inside the CW-61 combined with its high native resolution allows the most accurate scaling for all types of signals, including DVD (progressive or interlaced), all currently available HDTV formats, and computers. For video originally made in film, the CW-61 has built-in 3:2 pulldown for the sharpest and most artifact-free images possible. Like all Runco plasmas, it can be mounted on a wall or placed on a tabletop and is bright enough for use in any lighting situation. Its size is such that it can be the centerpiece of many home theaters.
