## RELATED ITEMS

### DVD Dream™ System

DAV-FC9

- V Chip Parental Control
- **Audio Features**
- 2 Way Passive Radiator Speaker System
- TruSurround® Sound Effect
- Audio Power: 15Wx2 (30W)
- Enhanced Memory Stick® Media Playback
- Advantage - Display of JPEG and MPEG1 files on screen
- Benefit - Play back of JPEG/MPEG 1 Memory Stick® Media files
- TruSurround™ SRS® Audio Processing
- Advantage - Generates lifelike sound of rear speakers using only the built in stereo speakers in the cabinet.
- Benefit - Eliminates the need to sit in the "sweet spot".
- Demonstration - Explanation Any seat in the house is a good one when you use the TruSurround™ SRS® audio effect. And with Sony Plasma's complete built-in solution, no additional components are needed to experience virtual surround sound. Audio amplification has also been provided. (KE-32TS2= 7w x 2, KE-42TS2= 9w x 2) Demonstration Hint Play an action movie. Go into the menu and choose "PICTURE MODE" (Liv. Rm, Movie or A/V Pro). Select Adjust Sound Effect and toggle between Off, Hall, Simulated and the TruSurround effect.
- Multi Image Driver™ X (MID-X)
- Advantage - Regardless of the source everything looks its best
- Benefit - Scales all incoming signals to match the matrix of the panel. High performance picture and picture for customizable image sizes.
- Demonstration - Explanation Sony's Proprietary WEGA™ Engine System consists of three key digital technologies engineered and designed by Sony. This all-digital processing engine has a unique digital imaging core for the best possible image quality. Multi Image Driver is one of these key technologies. Designed for fixed pixel displays. MID-X is utilized in two ways. Its primary job is to scale all incoming signals, Standard Definition or High Definition, to the configuration of the panel without degradation of signal quality. It also provides unique picture and picture features such as Flexible Twin View™ Picture and Picture with the ability to view SD and HD on the same screen. These windows are scalable so you can zoom in and out making them larger and smaller. Demonstration Hint Show Picture and Picture with two video sources. The Advanced WEGA Engine System features Direct Digital II Circuitry that integrates the 3D Digital Comb Filter that increases the signal to noise ratio
- **Specifications**
- Inputs and Outputs
- 2 RF Inputs
- 2 HD Component Video Input (Y/Pb/Pr)
